

HCCC Aquatic Rehabilitation Program for Hood Canal Low Dissolved Oxygen

Wastewater- OSS Workgroup

Friday, May 7, 2010

12:30 – 3:00 pm

Puget Sound Partnership Office
General Administration Building
210 11th Ave SW, Suite 401, Olympia, 98501

DRAFT AGENDA

1. Introductions
2. Agenda Review and Approval (5 Minutes)
3. Discuss what scientific information is needed from Hood Canal researchers to inform management and policy recommendations developed by this workgroup (30 minutes)
 - Describe scenarios which could be modeled or developed through scientific analysis that would assist this workgroup in developing recommendations.
 - Determine what questions and scenarios you have for Hood Canal researchers by mid-May.
4. Discuss the proposed approach for the Aquatic Rehabilitation Action Plan and wastewater-OSS chapter outline (35 minutes)
 - Do you think the overall approach to the chapter is effective?
 - What feedback do you have after reviewing the chapter outline?
 - What sequence of tasks should be used to develop the outline content most effectively?
 - Can workgroup members take the lead on developing sections in their area of expertise?

Break (10 minutes)
5. Discuss priority actions related to wastewater-OSS (30 Minutes)
 - What do you think are short term actions (low hanging fruit?) that can be prioritized for the near term?
 - What medium to long term actions should be considered?
 - What additional information is needed to further develop this list of priority actions?

6. Public involvement process (30 Minutes)
7. Next Steps (10 Minutes)
 - Agreement on the Next Things the Group Will focus On
 - Set Next Meeting Date, Time, Place, Known Agenda Items
8. Adjourn
